<p>Mammography post-primary training is being developed. Jennifer has agreed to the prospectus of training. Reached out to directors in the hospital system for possible candidates to be informed. Hopeful to begin training in January, 2020.</p>	<p>Who Mary Kleven</p>	<p>When On-going</p>

<p>Remind students to be prepared in their rotations and that even if they've competency tested on an exam it doesn't mean they don't have to participate.</p>	<p>Who Jennifer Miner</p>	<p>When immediately</p>
<p>Kelly Wight, OR lead technologist would like to require that students have to test on both one C-arm cases as well as two C-arm cases. PD believes that we test on enough exams in the OR; we will stick to the requirements that the students already have.</p>	<p>Who M. Kleven</p>	<p>When</p>

<p>Meritize- private loan company willing to offer funds to students on the basis of their ability to graduate and get a job. Looking into an agreement for students to secure funding for the program.</p>	<p>M. Kleven</p>	<p>September 2020</p>
<p>IVPs are no longer a live competency. We do not perform their in the department any more. CT has taken over the exam.</p>	<p>K. Budnick/J. Miner</p>	<p>July 2019</p>
