Ascension Providence Hospital

School of Diagnostic Medical Sonography

2021 Program Booklet

16001 W. Nine Mile Rd.
Southfield, Michigan 48075
(248) 849-5385

Electronic application is available at program website:
http://medicaleducationsjp.com/AlliedHealth/Sonography
Dear Potential Candidate,

Thank you for inquiring about Ascension Providence Hospital School of Diagnostic Medical Sonography, which is part of Ascension, one of the largest nonprofit health system in the nation and the world’s largest Catholic health system. This booklet describes the admission policies, general program content, plus many other specific details concerning the **July 2021** sonography program.

The sonography program has been in existence since 1977 and is under accreditation of the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and Joint Review Commission on Education in Diagnostic Medical Sonography (JRC-DMS). The American College of Radiology (ACR) for general and vascular ultrasound accredits Ascension Providence Hospital, Southfield & Novi Campuses and the American Institute of Ultrasound in Medicine (AIUM) accredits Ascension Providence & Ascension Providence Rochester Maternal Fetal Medicine, and Ascension St John Perinatal Departments. Our program is a unique hospital-based program in that we are accredited in both general and vascular sonography; one of only a few in the United States.

Ascension Providence Hospital is fully licensed by the State of Michigan Department of Public Health and is accredited by the Joint Commission of American Hospital Organizations (JCAHO). As a "state of the art" medical facility, the hospital has a highly-qualified team of medical professionals that are committed to excellence. Our sonography program is comprehensive and dynamic with many graduates employed within Ascension and throughout the Metro Detroit medical community.

Please review this program booklet provided and if you meet the requirements that are listed, **you must complete all necessary admissions procedures by February 12, 2021**. The interview process will take place in mid to late March with up to four students accepted into the program. The program is twenty-one (21) months in length and begins in **mid-July 2021 with completion in mid-April 2023**.

If you have any questions, feel free to contact me at (248) 849-5385. Again, thank you for considering the Ascension Providence Hospital School of Diagnostic Medical Sonography.

**Sincerely,**

**Tracey Olldashi, BA, RDMS, RVT**

Updated 11-11-2019
SPONSORING ORGANIZATIONS / PROGRAM ACCREDITATION

Ascension Providence Hospital School of Diagnostic Medical Sonography is under the accreditation guidelines of the CAAHEP (Commission of Accreditation of Allied Health Education Program) with general and vascular concentrations through 2024 (CAAHEP Program #110067). General concentration includes performing sonographic examinations of the abdomen, superficial structures, non-cardiac chest, fetal and pelvic per protocol guidelines with transabdominal and endocavitary transducers and Doppler modes. Vascular concentration includes the ability to perform sonographic examinations of the arterial and venous (upper and lower), extremity, cerebrovascular: extracranial and intracranial, abdominal vasculature and special vascular system circulations and Doppler display modes.

Ascension Providence Hospital is part of Ascension, one of the largest non-profit health system in the U.S, and the world’s largest Catholic health system. It is a full-service community hospital located in the northwest Detroit area. Ascension Providence Hospital is a teaching hospital directed by Ascension and the Daughters of Charity of Saint Vincent de Paul with over 125 years of continuous health care services.

Ascension Providence Hospital is fully licensed by the State of Michigan Department of Public Health and accredited by the Joint Commission of American Hospital Organizations (JCAHO). Ascension Providence Hospital, Southfield & Novi Campuses Diagnostic Ultrasound Departments are accredited by the American College of Radiology (ACR) in general and vascular ultrasound examinations. The American Institute of Ultrasound in Medicine (AIUM) accredits both Ascension Providence & Ascension Providence Rochester Maternal Fetal Medicine and St John Perinatal Imaging Departments.

PHILOSOPHY OF EDUCATION

This hospital system is committed to the highest standards of excellence for patient care and recognizes the necessity of quality education as a means of achieving and maintaining this standard. Education implies the art of utilization and dissemination of knowledge. Ascension Providence affirms the desire to attain excellence in education for the benefit of those they service. To this end, energies and resources are directed to develop and maintain educational programs of the highest standard.

In all areas of education, this institution desires to communicate its distinctive philosophy of excellence and dedication to those who come to learn, and thus, through them to the patients and the community served by the hospital.

ASCENSION PROVIDENCE HOSPITAL
SCHOOL OF DIAGNOSTIC MEDICAL SONOGRAPHY
MISSION STATEMENT

The School of Diagnostic Medical Sonography program administrators, educators, and clinical instructors are dedicated to provide quality education under our accreditation standards and guidelines. To achieve these ends, we commit ourselves to support each student in their pursuit to meet the didactic and clinical competencies according to the goals and objectives of the sonography program.
**PROFESSION DESCRIPTION**

The profession of diagnostic medical sonography includes general sonography, cardiac sonography, vascular technology, and various subspecialties. The profession requires judgment and the ability to provide appropriate health care services. Medical personnel that perform ultrasound exams are called sonographers. Sonographers are highly skilled medical professionals qualified by education to provide patient services using diagnostic techniques under the supervision of a licensed physician of medicine or osteopathy. The sonographer may provide this service in a variety of medical settings where the physician is responsible for the use and interpretation of appropriate procedures. Sonographers assist physicians in gathering data necessary to reach diagnostic decisions. The sonographer can perform the following:

1. Obtain, review, and integrate pertinent patient history and supporting clinical data to facilitate optimum diagnostic results.
2. Perform appropriate procedures and record anatomic, pathologic, and/or physiologic data for interpretation by a physician.
3. Record, analyze, and process diagnostic data and other pertinent observations made during the procedure for presentation to the interpreting physician.
4. Exercise discretion and judgment in the performance of sonographic and/or other non-invasive and invasive diagnostic services.
5. Demonstrate appropriate communication skills with patients and colleagues.
6. Act in a professional and ethical manner.
7. Provide patient education related to medical ultrasound and/or other non-invasive and invasive diagnostic vascular techniques, and promote principles of good health. (*standards & guidelines at caahep.org*)

To measure competency, students must successfully complete program academic and clinical requirements to become competent entry level sonographers. Graduates are eligible to take national registry exams by the American Registry of Diagnostic Medical Sonographers (ARDMS). Exam registry fees are the student’s personal responsibility to pay. Exams include Sonographic Physics and Instrumentation (SPI), and specialty exams in Abdomen, Obstetrics/Gynecological and Vascular sonography. Passing the Sonographic Physics & Instrumentation (SPI) exam and one specialty exams allows the sonographer to use the professional initials of "RDMS" (Registered Diagnostic Medical Sonography) after his/her name. In addition, passing the Sonographic Physics & Instrumentation (SPI) exam and the Vascular Technology exam allows the sonographer to use the professional initials of “RVT" after his/her name.

Most sonographers work in hospitals, outpatient centers, private doctor offices, and mobile ultrasound services. Ultrasound manufacturers also hire sonographers to demonstrate and sell ultrasound equipment and products. Employment opportunities in sonography should be investigated and evaluated by potential candidates. Inquires concerning the success and outcomes of graduates in obtaining employment is welcomed by the Program Coordinator.
PROGRAM GOAL
The program goal defining minimum expectations is to prepare competent entry level general and vascular sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

BASIC CURRICULUM
The Ascension Providence Hospital School of Diagnostic Medical Sonography is a twenty-one (21) month program with forty (40) hours completed each week. Program hours, including class days, are usually 7:00 AM to 3:30 PM* or 8:00 AM to 4:30 PM* - Monday through Friday. (*Program hours may vary slightly depending on individual clinical rotations.) Weekend hours are not required.

Didactic classes are held for approximately six hours per day, one to two days per week. The program total classroom hours are approximately 800 hours. Students are given course syllabi that include course hours, days, expectations, research/image assignments, transcript credits, objectives, grading scale and methodology, reading assignments with lecture and test schedule. Class consists of formal lectures, classroom discussion, review worksheets, case presentations, image review, Sonosim® simulated scanning with case studies, educational models, webinars and lab scanning. Other resources available to students include associated textbooks, department library, and hospital medical library resources (including on-line references).

Measuring didactic competency
The measurement of didactic competency is made with administration of tests, case presentations, class participation, image assignments, journal articles, research papers, midterm and final examinations. Students must maintain an 85% or above academic standing during the program. Students are informed of didactic grades throughout the program.

APPROPRIATE CLINICAL LEARNING EXPERIENCE

Sonography is direct patient care in both non-invasive and invasive examinations (tissue biopsy, cyst aspiration, drainage of fluid from body cavities (thoracentesis or paracentesis). Students will scan patients that will have blood and bodily fluids such as blood, feces, urine and other bodily fluids under appropriate universal precautions, infection control standards and guidelines (gloves, gowns, masks, etc.). Students will be required to scan all body parts including but not limited to: abdomen, female & male pelvis, head, neck, arms, legs, breast, scrotum, prostate, and penis instruction for completing exams with endocavitary (transvaginal and transrectal) transducers to improve image detail.

Clinical education is based on over 2,350 hours of clinical "one on one" instruction of each student with program sonographers/clinical instructors. Initially, students are scheduled with a specific sonographer to offer guidance, direction and support to students with a spirit of dedication and expertise. Later, the students with rotate with different instructors throughout the day. This allows the students to learn various approaches to clinical practice with an outcome that improves comprehension, knowledge, competency and versatility in a variety of clinical settings. Students will also complete clinical scanning labs with a clinical instructor along with Sonosim® clinical training courses and simulated case studies to apply classroom didactics and aid in building clinical competency.

All students are scheduled for clinical rotations to various approved clinical sites (see clinical sites listings below) to become competent in general and vascular ultrasound exams. Every student will complete one concentrated 15-week OB rotation (consisting of three clinical days per week) to a Maternal-Fetal Diagnostic (OB) Department to become competent in OB ultrasound exams. In addition, every student will complete one separate 4-week OB rotation also consisting of three (3) clinical days per week. The 4-week OB rotation will take place at a Maternal-Fetal Diagnostic (OB) Department or an OB/GYN Office.

Clinical sites/affiliations
Current approved clinical sites:
- Ascension Providence Hospital, Southfield Campus Ultrasound and Maternal Fetal Diagnostic Departments, Southfield, MI
- Ascension Providence Hospital, Novi Campus Ultrasound and Maternal Fetal Diagnostic Departments, Novi, MI
- Ascension Providence Rochester, Maternal Fetal Diagnostic Center, Rochester, MI
- Ascension St John Hospital, Ultrasound, Vascular and Maternal Fetal Diagnostic Departments, Detroit, MI
- Children’s Hospital of Michigan, Detroit, MI
- Comprehensive Vascular Offices, Southfield, MI and Novi, MI
- Riverside OB/GYN Office, Trenton, MI
Communication
Throughout the program, students are continually given feedback on level of clinical ability and performance from program coordinator, clinical coordinator, clinical instructors, and department radiologists. On-going communication between Program Coordinator, Clinical Coordinator and students is maintained and encouraged.

Clinical units include
1. Abdominal sonography
2. Pelvic sonography
3. Obstetrical sonography
4. Vascular sonography (cerebrovascular and peripheral vascular)
5. Superficial sonography (breast, thyroid, parathyroid and scrotal)
6. Pediatric sonography

Measuring clinical competency
Throughout the program, students are individually given time frames based on clinical rotations and academic coursework to complete Clinical Feedback and Competency Evaluations for each clinical unit. In addition, Clinical Evaluations are completed after every rotation and reviewed with Program Coordinator, Clinical Coordinator and students to determine level of didactic and clinical achievement.

If a student falls below competency level in either clinical or academic areas, counseling will be given along with enacting the remediation or probationary policies as stated by program manual.

PROGRAM STANDARDS / GRADUATION REQUIREMENTS

To successfully complete the program, the student must:
1. Obtain a clinical level that meets or exceeds standard of clinical competency for each quarterly clinical evaluation.
2. Maintain an 85% or above academic standing upon completion of each of the nine (9) didactic course units.
3. Obtain a competency level that meets or exceeds standard of competency for required Clinical Feedback and Competency Evaluations.
4. Exercise independent judgment and discretion in the completion of medical imaging ultrasound procedures.
5. Apply the knowledge of anatomy and physiology and scanning procedures to competently demonstrate anatomical and pathological structures for the ultrasound exams instructed within the curriculum.
6. Provide accepted standards of patient care, safety and comfort.
7. Adhere to hospital, departmental and program policies. Program policies are listed in program policy manual given to each student upon acceptance in the program and reviewed with each student at start of program.
8. Complete all clinical time including make-up time by the end of program.
9. Demonstrate effective written and oral communication skills.

Upon graduation, students are given a school pin, certificate of graduation and required documentation to take national registry (ARDMS) exams.
ADMISSION PROCEDURES

Program course requirements have been derived from the Standards and Guidelines for Diagnostic Medical Sonography accredited by CAAHEP (Commission on Accreditation of Allied Health Education Programs) which state each applicant shall demonstrate completion of educational background #1 or #2 and specific prerequisite secondary courses (listed below). All program pre-requisites must be accredited by the U.S. Dept. of Education, or recognized equivalency of, and approved for post-secondary college credits.

❖ **Required educational background:** All candidates must have one of the following educational backgrounds by the start of the program with a GPA of 2.8 or higher.

*Required educational background #1* – must have completed an AMA (American Medical Association)-recognized two (2) year allied health program as a registered radiologic technologist, registered nurse, registered respiratory therapist, registered occupational therapist or physical therapist. The applicant must be registered or become registered in the allied health field by the start of the sonography program.

(If Physics or any other pre-requisite(s) was not included in the Allied Health Program or completed as a post-secondary course, they must be successfully completed prior to the start of the program.)

-- OR --

*Required educational background #2* - must have a minimum of an Associate Degree of Science* from an accredited American university or college (or recognized equivalent). Program officials will determine if any review courses need to be repeated if courses are more than 10 years old.

*Madonna University* has an Allied Health Pre-Sonography Program, Associate of Science Degree, which provides all course pre-requisites for Ascension Providence Hospital School of Diagnostic Medical Sonography program

[http://alt.madonna.edu/academics/departments/forensic-science/pre-clinical-imaging-sciences](http://alt.madonna.edu/academics/departments/forensic-science/pre-clinical-imaging-sciences)

❖ **Required specific pre-requisites:** All courses must be completed prior to July 1, 2021.

1. Algebra, statistics, or higher mathematics course
2. General physics and/or radiologic physics
3. Communication skills (may be a speech component in an English or dedicated communications or speech course)
4. Human anatomy and physiology
5. Pathophysiology (human anatomy pathology)
6. Medical terminology
7. Medical ethics and law

❖ **Required patient care:** All patient care hours must have been completed within the twelve months prior to the application deadline (between July 2020 – July 2021).

All candidates must have 80 hours of documented patient care experience at hospital or clinic through employment or observation volunteer time.

Please contact Tracey Olldashi, Program Coordinator at Tracey.Olldashi@ascension.org for more information or if interested in completing patient care hours at Ascension Providence Hospital.
**International Candidates**
All candidates must be eligible to legally work in the United States (U.S.). The program does not accept candidates without approved U.S. employment authorization. Applicants with degrees from outside the United States must have a course-by-course evaluation completed by a facility that is a member of the National Association of Credential Evaluation Services (NACES) qualified to evaluate foreign educational credentials to verify equivalency to a U.S. Associate of Science Degree or higher. Contact Program Coordinator for further details.

**Medical School Graduates**
Ascension Providence Hospital School of Diagnostic Medical Sonography is a technical educational program and does not accept applications from graduates from all domestic or foreign medical schools. Physicians are advised to seek information for obtaining sonography education by contacting the American Medical Association (ama-assn.org) or Society of Diagnostic Medical Sonography (sdms.org).

**PROGRAM POLICY MANUAL**

Upon selection into the program, each student will be given a program policy manual prior to signing the program letter of agreement. The program policy manual includes most program and hospital policies and will be reviewed at the start of the program. Students will be expected to adhere to, review and become informed of our program and hospital policies. **Program manuals will be made available to potential candidates by contacting Program Coordinator.**

**EARLY ADMISSION AND WAITING LIST**

Ascension Providence Hospital School of Diagnostic Medical Sonography does not offer early admission or advanced placement for candidates. There is no waiting list for program admission. Candidates must apply each year and compete against the field of candidates for that year.

**MINIMAL PHYSICAL REQUIREMENTS**

All applicants are notified of the minimum physical requirements appropriate to diagnostic medical sonography. The **Technical Standards Survey** (see page 15) must be completed and returned with application (written or on-line; online preferred).

It is the policy of the program, in compliance with the Americans with Disabilities Act (ADA), to provide reasonable accommodation to select qualified, disabled individuals so that they can perform the essential functions of the job. Reasonable accommodation will be provided to such individuals unless it imposes an undue hardship upon the program.
APPLICATION REQUIREMENTS

Application deadline is February 12, 2021 with personal interviews held in mid to late March. The program starts mid-July 2021 and ends in mid-April 2023. All candidates must complete or provide the following by the deadline to be considered:

1. On-line Application Form including the Technical Standards Survey which can be found on our program website: http://medicaleducations.jp/AlliedHealth/Sonography

2. Application fee of $50 (make checks payable to “Ascension Providence Hospital”)

3. Personal letter to state reasons for interest in the field of sonography and Ascension Providence Hospital School of Diagnostic Medical Sonography.

4. Two (2) letters of professional reference - both must be dated within the last twelve (12) months at time application is received.

5. High school transcript

6. Complete all pre-requisite courses (see page 9) prior to July 1, 2021.

7. All official educational transcripts since high school (college courses taken more than 10 years old will be reviewed by program officials to determine if review courses must be completed).

8. Copies of all certificates of graduation or diplomas from colleges/universities and/or allied health educational programs since high school including documentation of allied health careers. (If applicable, candidates must be currently registered as one of the following: Radiologic Technologist, Nurse, Respiratory Therapist, Occupational Therapist or Physical Therapist.)

9. Documentation of 80 hours of patient care experience - documented volunteer observation time in a hospital or clinical patient care setting OR employed in the medical field.

10. All candidates selected for an interview will be required to take the Pegasus Ultrasound Student Assessment exam as part of the student selection process. The test is administered by program officials at Ascension Providence Hospital, Southfield Campus and will be scheduled prior to interviews. Exam fee payment ($65.00) is to be made directly to the company by applicant prior to the scheduled testing date. Applicant’s individual results will be sent via email to applicant. Please note, there is no pass or fail to this exam; it is one tool that is used as part of the application process to help select successful ultrasound students.

11. All candidates selected for an interview will be required to observe for one half day (3 – 4 hours) at Ascension Providence Hospital, Southfield Campus in the ultrasound department.

12. All candidates selected for the program will be required to successfully complete a criminal background check, drug-screen and physical by Ascension Providence Hospital, before final acceptance into the program.

13. All candidates selected for the program must maintain current BLS (Basic Life Support) certification for the duration of the program - not included in the tuition amount.
Limited number interviewed
Program Coordinator is responsible to evaluate all candidates for eligibility. A limited number of the eligible candidates will be selected for the interview process. Everyone will be informed of their eligibility and interview status. Candidates that are selected for the interview portion of the selection process will be interviewed by candidate selection committee. Everyone who is interviewed will be mailed or emailed a letter of acceptance or non-acceptance.

Selection Criteria
Candidates are selected into the program based on valid and objective admission criteria. The principle criteria in which candidates are selected are (in no particular order of importance) academic standings, clinical/patient care experience, results of Pegasus USA exam, and personal interview by candidate selection committee, including required observational hours.

Student Health Care Policy
Health care is not provided by the hospital and must be obtained privately per the discretion of each student. **Ascension Providence does not provide health care insurance to students at any time during the program.**

Pre-Program Physical
After acceptance into the program and prior to start of the program, each student must successfully complete a pre-program physical, including a drug screen. Ascension Michigan at Work will perform the pre-program physical and drug screen.

Financial Information
Program tuition is $9,000 plus $150 lab fee along with $50 application fee. $2,000 of tuition amount is due with Letter of Agreement upon acceptance into program; $3,500 plus a $150 lab fee ($3,650) is paid on the first day of the program with the remaining payment ($3,500) paid after 6 months’ completion of the program. **Required textbooks must be purchased by students and are NOT included in the tuition amount (2019 textbook cost was approximately $800).** All application fees and tuition payments are nonrefundable after payment is received. All tuition fees are due at designated payment dates and would constitute program dismissal if not paid by the deadlines.

The program will pay for the registration fee for one local sonography conference chosen by the program coordinator during the program and inform students of the date and time.

Financing Available Through Meritize Financial
Meritize Financial offers student loans that are customized based on individual student performance. Students may be able to finance the cost of tuition. Financing process is between student and Meritize directly.

Please see website for more information: [www.meritize.com](http://www.meritize.com)
Financial Aid
Title IV Federal Financial Aid is not available through Ascension Providence, however, students selected into the Ascension Providence Hospital School of Diagnostic Medical Sonography may inquire if eligible for financial aid through Madonna University. Candidates would not be eligible for financial aid until program begins. Please contact Program Coordinator for additional information. Tuition Forgiveness Program is not currently available.

Expenses during the program (excluding application and tuition fees)
- Students are responsible for purchasing required “scrub-type” uniforms and shoes that meet hospital and all clinical affiliate requirements.
- Student membership to the Society of Diagnostic Medical Sonographers (SDMS) will be necessary in order to view webinars which will be supplemental to didactic instruction. (2019 cost - $45)
- There is no food allowance for students during the program.
- Students are responsible for all fees associated with mandatory BLS Certification

Optional additional costs:
- Students will be given time off to attend up to two additional local conferences if held during program hours but will be required to pay the registration fees.
- Student membership in the American Institute of Ultrasound in Medicine – AIUM (2019 cost - $25)

Scholarship information is available by contacting sdms.org
SDMS Educational Foundation
(214) 473-8057 or (800) 229-9506
Radiologic Technologists should contact the Michigan Society of Radiologic Technology (MSRT) for scholarship information at msrt.org.

PROGRAM TIME OFF

Each student is receives a total maximum possibility of thirty-eight (38) days off (combined sick and/or vacation time) during the twenty-one (21) month program. Thirty (30) days off will be made available at the start of the program and the remaining eight (8) days will be given after successful completion of external rotations, scheduled throughout the program. Any additional time off will be required to be made up before successful graduation from the program per time off policy (see Program Coordinator for additional information).

STUDENT WORKING DURING PROGRAM

Due to the intensity and volume of course material, maintaining employment while in the program is not recommended. If employment outside the program is necessary, it must not conflict with the academic or clinical schedules and not interfere with clinical or academic performance.
EQUAL OPPORTUNITY POLICY

Ascension Providence is an Equal Opportunity Employer. In decisions regarding hiring, recruiting, promotion, transfer, assignment, training, classification, pay, benefits, discipline any other term, condition or privilege of student position, Ascension Providence Hospital School of Diagnostic Medical Sonography will apply equal criteria without regard to religion, race, color, national origin, age, sex, height, weight, marital status, sexual preference, arrest record or disability unrelated to job duties.

REASONABLE ACCOMODATIONS

It is the policy of the program, in compliance with the Americans with Disabilities Act (ADA), to provide reasonable accommodation to select qualified, disabled individuals so that they can perform the essential functions of the job. Reasonable accommodation will be provided to such individuals unless it imposes an undue hardship upon the program.

CORRESPONDENCE ADDRESS

Please address all communications to the address below or contact Program Coordinator at (248) 849-5385 with any questions.

Ascension Providence Hospital School of Diagnostic Medical Sonography
Technical Standards Survey

➢ This is filled out electronically during the on-line program application process.
➢ All applicants to the School of Diagnostic Medical Sonography are notified of the minimum requirements appropriate to the profession of Sonography.

The Americans with Disabilities Act (ADA) technical standards for the profession of diagnostic medical sonography include the ability to perform all the following with reasonable accommodations:

- Lift more than 50 pound routinely
- Push and pull routinely
- Bend and stoop routinely
- Have full use of both hands, wrists and shoulders
- Distinguish audible sounds
- Adequately view sonograms, including color distinctions
- Work standing on their feet 80% of the time
- Interact compassionately and effectively with the sick or injured
- Assist patients on and off examining tables
- Organize and accurately perform the individual steps in a sonographic procedure in the proper sequence

Are you able to perform all the technical standards identified above with reasonable accommodations?
